Comfortable Christmas Shopping.

In the rush and hurry of Christmas shopping you'll find a visit to this store most agreeable. There are plenty of salesmen to serve you without the necessity of waiting—salesmen that are thoroughly familiar with the goods they are selling, and can be of immense advantage in advising on your contemplated purchases. If you desire to rest, there are plenty of good, easy chairs that you are welcome to use.

At this season of the year you'll most appreciate our store service—the courteous assistance of our salesmen in making your selections, and the pains we will take in showing you our stock, even if you are only "looking" at the time.

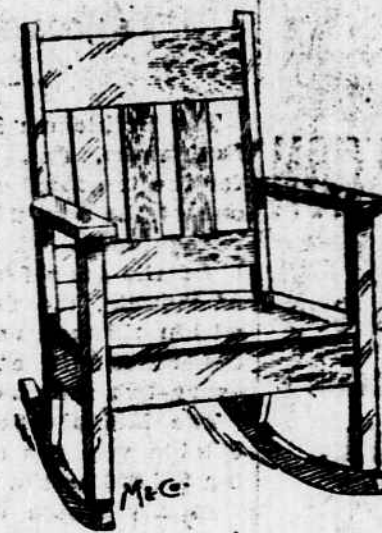

Make your gifts this year serviceable ones. Give furniture. It's useful, gives comfort to the recipient, and, best of all, it is a present that will give years of service. Let us show you our stock. You'll not be importuned to buy unless you care to.

Glenwood Ranges.

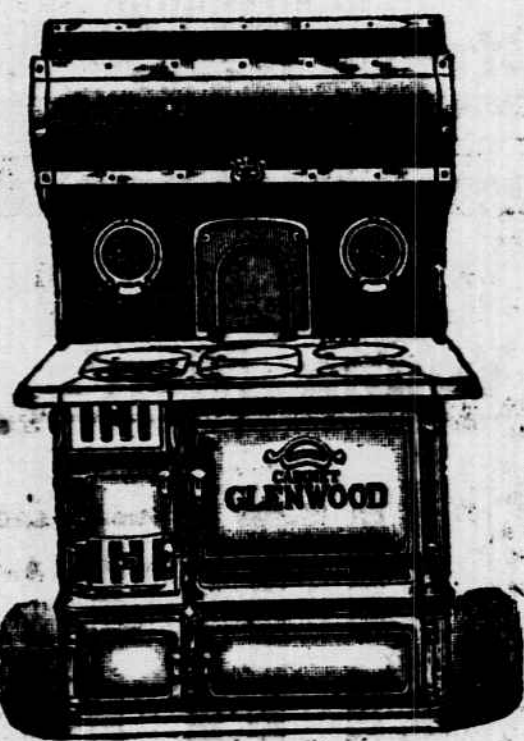

The superior construction of Glenwood Ranges, their air-tight flues and perfect control of the drafts will soon save enough fuel to pay the cost of the range. The castings are heavier than those of other ranges, of finer texture and fitted together so perfectly that each range is practically air tight. The heat indicators on the oven doors tell the exact temperature of the oven without the necessity of opening the door, insuring perfect baking and saving the heat that escapes when the door is opened.

This Large Cabinet "Glenwood" Range,

\$45.00

Mantel Closet, \$13.75

This range has an oven that is 18 inches square and 12 inches high. The top is 37 inches wide and 27 inches deep, has six lids, each eight inches in diameter, and every one of these six lids is in direct contact with the heat. The top is of solid quartered oak, and the entire top of this Glenwood Range for cooking, instead of only two or three lids, as is the case with other stoves. The stove door is on the back of the stove, out of contact with the flame, and it cannot warp or stick. All the openings and doors of the range are on the front, making it possible to set either end against the wall if desired.

See Our Demonstrator Baking Bread, Cakes, Biscuits, Etc., and Roasting Meats in a

"Jewel" Fireless Cooker.

Yes, the "Jewel" Fireless Cooker will brown roasts and bake bread and pastry just as thoroughly and as quickly as a range. And the food tastes better, as none of the flavor is lost in the steam of cooking. Most cookers will not brown roasts and so will do only half of the work the "Jewel" does.

We have a demonstrator at work on the first floor of our store showing how to use these cookers—how to save hours of kitchen work daily and how to save most of the fuel bill. Come in and let her explain them to you. It's interesting.

Sold Subject to 15 Days' Trial.

The "Jewel" Is the Only Fireless Cooker That Is Completely Lined With Aluminum.

A Fireless Cooker saves so much time that it is economy to buy only the best. The "Jewel" Cooker is the only fireless cooker made that is entirely lined with pure aluminum, and will not rust through, wear out from rust or tarnish and make the food taste. With the "Jewel" Cooker you can let the meal cook while you are away or otherwise occupied, and when you return a hot meal is ready to serve. The food does not need watching, as it will not cook dry nor burn.

This Large Three Compartment "Jewel" Cooker— **\$20.00**
Two Compartment "Chatham" Cookers— **\$13.50**
